EDUCATION

University of Michigan, College of Literature, Science, and the Arts
B.S. in Psychology | Minors in UX Design and Linguistics | Expected May 2028 | GPA: 4.0/4.0
Honors: James B. Angell Scholar; William J. Branstrom Freshman Prize; Psi Chi; University Honors
Relevant coursework: Human-Computer Interaction; Games & UX Design; Web Design & Accessibility; Decision Processes

UX EXPERIENCE AND PROJECTS

SOCHI | University of Michigan Ross School of Business Client Project
Project Team Member - UX & Accessibility Sep. 2026 - Present
- Member of a team developing a web-scraping tool with API integration for student resource catalogs at UMImpactRoadmap.com and UMSustainabilityNavigator.com.
- Designated as the sole UX and accessibility contributor, with workflow review and accessible website layout design scoped for a later project phase.

Chengdu Dongji Six Senses Game Co., Ltd.
UX Designer Intern | Chengdu, China Jul. - Aug. 2026
- Evaluated a mobile life-simulation game through heuristic analysis and gameplay testing across onboarding, quest flow, navigation, and camera controls; proposed solutions for 25+ usability issues using HCI and psychology principles.
- Redesigned home-decoration interactions in Figma with 30+ wireframes and UI states covering inventory search, undo/redo, and 3D block placement; benchmarked 6 competitors, including Animal Crossing and The Sims 4.

Chengdu Jianle Interactive Technology Co., Ltd.
Market Research Analyst Intern | Chengdu, China Jul. 2026
- Produced 4 competitive research reports analyzing 3 leading mobile games across 3 market/product categories to inform design and user-acquisition strategy.
- Identified 7 usability and accessibility issues in internal builds, driving onboarding fixes and a redesigned title-screen animation.

Game UX Design & Research Project
UX Researcher & Game Designer | Ann Arbor, MI Mar. - Apr. 2026
- Led a 5-person cross-functional team on an action-RPG design project; conducted concept testing with 8 participants, informing 6+ iterations across narrative, accessibility, and monetization.
- Co-developed a 30+ slide pitch and game design document presented to Microsoft and EA; incorporated industry-designer feedback into the project.

RESEARCH EXPERIENCE

Emotion and Self-Control Lab | University of Michigan
Research Assistant | Ann Arbor, MI Sep. 2026 - Present
- Work with postdoctoral researcher Alexandra Wormley on an AI and social support study examining whom teenagers turn to during major life stressors: AI or people close to them.
- Help conduct interviews, document findings, and analyze quantitative results using R in RStudio.

LLM Emotional Reasoning Research
Researcher | Ann Arbor, MI Mar. 2026 - Present
- Designed a comparative study across 16 social-pain scenarios and 4 emotional domains; collected 96 human ratings and 80 responses from 5 major LLMs.
- Analyzed human-AI calibration using mean absolute error (MAE), identifying systematic overestimation of social-pain severity by LLMs; best-performing model achieved 0.67 MAE.

SKILLS

Research and design: User research, usability testing, survey and interview design, heuristic evaluation, competitive research, quantitative data analysis, human-centered design, wireframing, prototyping
Tools and technical: Figma, R / RStudio, Adobe Photoshop and Illustrator, Unity, Blender, HTML, CSS, JavaScript, C++, QA testing
Languages: Mandarin (Fluent), English (Fluent), Korean (Elementary)
